- **Back-End:** Node, Java.
- **Databases:** MongoDB, PostgreSQL, MySQL.

EXPERIENCE

Full Stack Developer Junior

August 2023 –Present.

Internship - FisiomFulness.

- Bug fixes.
- Make improvements to the code.
- Optimize the page.
- Make a new design for the page using Figma.
- Update de page layout using TailwindCSS.

Full Stack Web Developer

March 2023 – April 2023

Freelance - Preguntate

I had to pass a page made with HTML, PHP and JQuery to React and Node.js. After changing the base of the page to those languages, I had to add the following changes:

- Database with MongoDB.
- Google user system.
- Like/dislike system.
- A system for sorting/filtering the questions.
- A system to create questions.
- Design improvements.
- Administrator system with their respective functions.

PROFESSIONAL EDUCATION

- Full Stack Web Development. Henry Bootcamp. 800 hours of theoretical-practical course. 2022.
- Full Stack Web Development. Argentina Programa 4.0. 2023.

COMPLEMENTARY EDUCATION

- Java Upskilling Course. Soy Henry. 2023.
- Mi Experiencia SAP 2022.
- Yo Puedo Programar. Junior Achievement Argentina. 2022.

LANGUAGES

- Spanish – Native.
- English C2 – Advanced.
